

BlackBox Bootcamp Class

New Member Class Testimonial:

"I was so excited after attending the boot camp I signed up for a 2nd boot camp training this week. Attending the boot camp is a must for all members new and old in mastering the BlackBox system as it evolves for its members. The training helped me to better navigate the BlackBox platform, basic trading terminology, trading basics, best practices, risk management and position sizing to avoid blowing up your account. I've been a member for just over 2 months and my account has grown 125%. Everyday, I look forward to trading with the family. Thank you, BlackBox!"

-Westrader22

At BlackBox, we know education is essential for achieving consistent profitability in trading. We offer a variety of classes to help our members learn and develop their trading styles and strategies. Our education program begins with the BlackBox Boot Camp – a 3-hour comprehensive introduction to stocks, options, and the BlackBox system. Boot Camp is designed to help you ‘hit the ground running’!

During Boot Camp, you will learn the following:

Hour 1 – How to Trade Stocks

- Basic market terminology
- Trading – buying and selling
- What is “short selling” and what are the risks?
- Pattern Day Trader (PDT) rules – What are they and how do they impact your trading?
- Recommended brokerages – TD Ameritrade discounted commissions and brokers to avoid
- The dangers of trading Penny Stocks and Low Float Stocks
- An Introduction to Technical Analysis - charts, candles, and more
- Identifying support and resistance levels
- FIVE ways people blow up their accounts! (How to protect your capital and profits)
- Tips for new traders

Hour 2 – How to Trade Options

- Options terminology
- What are calls and puts?

- Directional option strategies
- Reading an options chain
- Choosing a strike and expiration
- Settlement timeframes
- Cash account option for small accounts

Hour 3 – Tutorial on the Blackbox System

This segment will give you an in-depth look at the BlackBox system and how to use its powerful features including:

- Our multiple alert types and what they mean:
 - Pre-Market Alert
 - Volume Active Alert
 - Price Spike Alert
 - Retracement Alert
 - Rapid Decline Alert
 - Usual Suspect Alert
- Our proprietary scanners and data tables plus our extensive charting program :
 - Alert Log
 - Top 10 Gainers
 - Pre-market scanner
 - Intraday scanner
 - Post market scanner
 - Volume ratio scanner
 - Alert charts
 - Volatility indicator (our substitute for a Level 2 system)
 - Charting tools, studies, and indicators
- Our robust media features:
 - Real-time news
 - Symbol specific news
 - Social media sentiment
- Our dynamic BlackBox trading community
 - How to access our live trading rooms
 - Your moderators
 - How to connect, interact, and contribute – we encourage participation!
 - Room guidelines
 - How to sign up for our private Twitter feed and other valuable content on BlackBox’s social media sites

Your instructor – Stephen Beilby

After 24 years at corporate powerhouse, IBM, Stephen followed his passion and became a full-time trader in 2002. He is an avid student of the market and continually seeks to learn and create new techniques. He began trading futures in 2005 and added forex to his trading repertoire in 2006. Stephen began teaching others the trade in 2012 and has taught online classes for multiple trading groups. He has also created numerous videos on various trading strategies and technical indicators.

-Stephen Beilby

The live Boot Camp webinar is offered multiple times per week so it is easy to find a class to fit your schedule. To sign up for the Boot Camp, simply sign onto the BlackBox platform, look for the Support tab then click Calendar and sign up for the class that works best for you. Welcome to Team BlackBox!
